

PARTNER WITH THE GLOBAL CHURCH FUND LIFE-CHANGING PROGRAMMES

PARTNERS IN MISSION INFORMATION LEAFLET

The Partners in Mission scheme allows you to support one of five churches around the world in serving their local communities in the love of Jesus. Each of our partner churches runs life-changing local programmes, responding to important needs such as food security, health inequality and gender-based violence.

When you partner with a church, 100% of your donations will go towards funding these vital programmes. During your partnership you'll be able to access a special website with regular updates about the impact your donations are having over time, including amazing stories and prayer requests. You can even invite a USPG speaker to visit your church so you can get to know your partner better.

OUR PARTNERS

Once you've selected the church you'd like to support and filled out a sign up form, we'll invite you to set up a regular gift in a way that works for you so you can start transforming lives right away.

THE CHURCH OF BANGLADESH

The Church of Bangladesh raises awareness of health issues and disease prevention so that communities feel empowered to take their health into their own hands. Their programme trains community health workers, runs clinics, offers healthcare camps for free check-ups, and provides a medicine delivery service.

THE ANGLICAN CHURCH OF TANZANIA

The Anglican Church of Tanzania runs the Prevention of Mother-to-Child HIV Transmission programme. This programme provides practical and medical support to prevent the virus being passed on from mothers to their children and raises awareness of HIV within the community.

THE ANGLICAN CHURCH OF ZIMBABWE

The Church of Zimbabwe's Stigma Reduction Programme trains church leaders on issues of HIV and has created wellness groups that provide a network to people living with HIV. They also offer access to food gardens and help with developing sustainable livelihoods.

THE CHURCH OF CEYLON

Your partnership with the Church of Ceylon will provide healthcare and education, fostering confidence and improving lives and opportunities, as well as reducing the prevalence of other issues such as domestic violence and abuse.

THE ANGLICAN COUNCIL OF MALAWI

The Anglican Council of Malawi aims to improve food security and poverty in its rural communities by providing drought tolerant seeds, training small holders in conservation agriculture and sustainable farming. They are also training women in finance and marketing skills so that they can create sustainable livelihoods.
